

Improve Efficiency & Productivity With Wireless Solutions From LRS

Instant Staff Notification

Wireless Pushbutton Paging

Truck Driver Paging

www.pager.net

Instant Staff Notification

Enhance staff productivity

Ensures messages are received in loud environments

No Monthly Fees

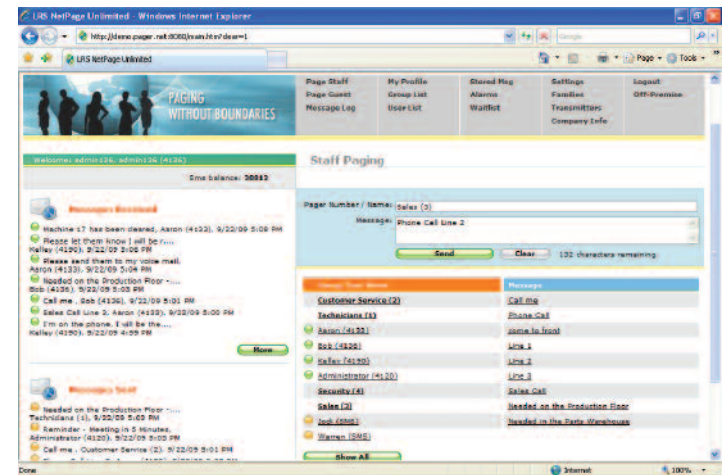

Instant notification enables quick response times

Reduce equipment downtime by locating service techs faster

Reduce on-hold hang-ups

Page individuals or an entire group

Eliminate disruptive overhead paging

Netpage Software

Contact Staff Instantly From Your PC With NetPage Unlimited

Maintaining constant contact between manufacturing employees can be a daily challenge. Improve efficiency and productivity in manufacturing operations by equipping managers, supervisors, technicians, and other key personnel with the tools to communicate instantly and effectively, no matter where they are onsite.

Battery-Operated Alphanumeric Pager

Wireless Pushbutton Paging

Butler XP

Improve response time

Instantly notify the correct personnel

Reduce the time it takes to locate a supervisor or other personnel

Enhance plant safety with improved communication

Allow staff to multi-task knowing that they can be paged when needed

Enhance Communication And Improve Production Throughout Your Facility

Improving communication between workers and their supervisors can dramatically impact productivity and worker safety. Ensure communication across your entire facility with the Butler XP push-button paging system. Workstation employees can instantly notify key personnel such as supervisors, technicians, or maintenance staff of any issues or incidents that occur onsite.

How it works:

1. Mount the Butler XP push-button transmitter wherever notification may be needed.
2. When the button is pressed, a text message is instantly sent to personnel wearing an LRS alphanumeric pager with a specific message Ie. Need assistance in the warehouse.
3. The employee who receives the message, responds accordingly

Butler XP mounted with zip ties

Alphanumeric Pager

Applications:

- Receiving Dock Notification
- Will Call Notification
- Production Floor
- Parts & Equipment Checkout
- Visitor Notification

Truck Driver Paging

Increase productivity and organization

Increase accuracy of truck deployment

Eliminate wasted time hand-delivering messages to waiting drivers

Prevent traffic jams caused by vehicles parking for unloading

Notify drivers immediately

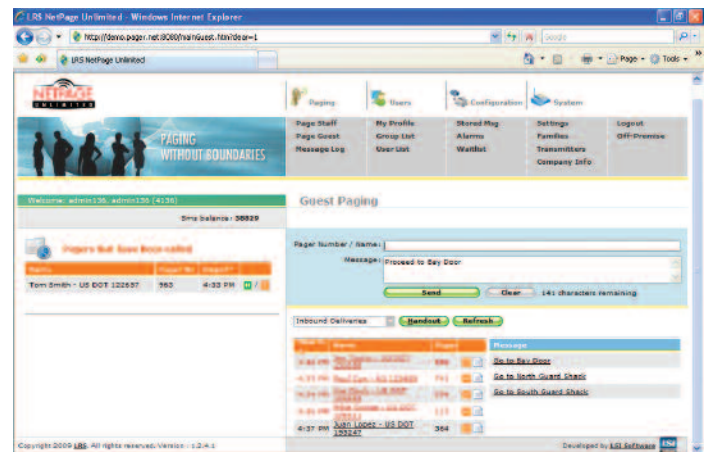

Provide truck drivers peace of mind while they wait

Improve efficiencies in logistics operations with instant communication

Efficiently controlling the flow of trucks in logistics can result in significant operational gains. LRS' Logistics Paging Solutions allow logistics operators to immediately notify waiting drivers when it's their turn to approach the docking station, no matter where they are located within and near facility grounds. Using alphanumeric messaging, or cell phone notification, drivers can be informed of exactly when and what dock they are to report to.

How it works:

1. Hand out pagers to drivers as they enter the station, before they park and wait
2. Page them when it is their turn to approach the loading dock or check-in area (direct them to a specific loading dock with alpha messaging)

About Us

Experience

Since 1993, LRS has been the leading supplier of on-site guest and staff paging and management systems by providing the most effective solutions and listening to the needs of our customers. Now, we offer newer products designed to increase sales, collect real-time guest marketing data and more.

Innovation

LRS owns 20 patents and we provide over 30 products designed to help you streamline operations, improve service and increase sales every day. We've developed and offer exclusive products and services no other company can. Products like:

Networked Based Paging Systems

Our local paging system that provides unlimited range for both staff and guest paging with waitlists and multiple message types: SMS Text Message, Onsite Pager, Email. NetPage Unlimited also features paging families for transmit controllers enabling quick, reliable and increased message throughput

Quality

LRS is an engineering and manufacturing company. All of our products are designed and assembled by us. We closely control quality, and we design systems with features that are important to you.

Durable and Rugged Pagers

They're made of extremely durable Lexan plastic to survive even the most rugged environments.

Separate Pager Holsters

Instead of attached belt clips that break easily, our rechargeable pagers are carried in separate spring-loaded pager holsters. This eliminates broken belt clips as well as the need to return an entire pager for repair.

Value

LRS has always been the leader in value-driven products. We guarantee the most features for the greatest value. Plus, when you factor in your increase in sales due to improved guest satisfaction and staff productivity, our systems are virtually priceless.

24/7 Customer Support

Our customer service department in Addison, Texas is available 24 hours a day, 7 days a week to answer any questions you may have — even on holidays!

Warranties

We stand behind the quality of our products and provide a standard warranty. Extended and lifetime warranties are also available.
