Quietly Communicate While Your Clients Rejuvenate

Contact your staff without disturbing the tranquility of your clients. With LRS paging systems, you can page your staff instantly and silently. Daily operations run smoother and your atmosphere remains peaceful so your guests don't feel rushed or pressured.

NetPage Unlimited

Send detailed text messages silently from any stand-alone or network computer to staff members wearing an LRS Alphanumeric pager. Pull up the NetPage Unlimited screen, click on a name, type in a message, then hit Send. It's that simple. Page one person or your entire staff. Let them know when an appointment has arrived or one of 65 other pre-canned messages.

NetPage Unlimited Screenshot

- Eliminates overhead paging
- Messages delivered instantly to LRS alphanumeric pagers
- Send detailed or pre-canned text messages
- Page individuals or entire groups
- Simple to use

Butler II™ Client & Staff Paging

This slim, low-cost unit pages staff members quietly from any treatment room. It attaches to almost any surface and comes in two models with one or five programmable buttons. Clients can use it to let you know when they are ready for a session, and staff members can page the front desk letting them know a room is available.

- Customers no longer have to track down help
- Improves response time
- No hardwiring required - operates on 3 AAA batteries
- Attaches to almost any surface
- Available in one and five-button models
- Buttons can be programmed to page staff or managers with an LRS Alphanumeric Pager

Reliable and affordable LRS pagers let you spend less time running around and more time with your clients. Call us today to find out more.

That way your guests can relax...and so can you.
